

How to apply:

Previous applicants do not need to reapply.

To apply you can either apply online or download the University's application form from:

<http://www.admin.ox.ac.uk/postgraduate/apply/forms/>. You will need to submit references, transcript and a statement of research interests (in the slot marked "research proposal")

You should quote the following studentship code:

09COMP-MB-WEB – if you have seen the advert on the Computing Laboratory web pages

09COMP-MB-JOBS – if you are applying from jobs.ac.uk

09COMP-MB-FIND – if you are applying from findaphd.com

All applications are subject to a £25 application fee.

When you have submitted your application, will you please email Julie Sheppard: Julie@comlab.ox.ac.uk to inform her that you have done so and send a copy of your application to Julie.

Further Information

Further details of the Information Systems Group's work can be found at:

<http://web.comlab.ox.ac.uk/oucl/work/stanislav.zivny/db/>

These studentships are associated with the EPSRC project "Enforcement of Constraints on XML Streams", which will deal with issues in XML integrity-constraints and stream processing. The project has a number of components, some of which are quite theoretical and others are which are extremely applied. A systems-oriented student should have an interest in stream processing and a background in either database management or runtime monitoring. A student interested in theoretical issues should have background in automata theory and logic. A solid grounding in theoretical computer science and an interest in information management is required regardless of topic.

Details of the project can be seen here:

<http://gow.epsrc.ac.uk/ViewGrant.aspx?GrantRef=EP/G004021/1>

If you have any questions about the applications procedure please email Julie@comlab.ox.ac.uk
